CORRESPONDENCE.

Richington, October 28th, 1862.

Mellis, Callender of Pace. It has been but a few days since we had an opportunity of perusing your valuable paper, entitled the Recorder, & say nothing because it appears therefrom that your determination is not to be biased by either of the parties that now exist in this country.

Long have we, who live in this retired part of the State, waited for such a press to be established; for the most of them are managed by those who place themselves to be so much corrupted by the bribes, &c. of the contending parties, that it is impossible to find an impartial account of any thing, in which either is interested.

The information you have given respecting the president, so far as it concerns negro Sully, is new on this side the river. It will ever be considered as a stigma upon his character, by all religious and good citizens. He has broken the laws of God and man. It is therefore to be hoped that the people of the United States will never continue in the ignominious post of presidency, a man who has been guilty of such an irreligious and dishonorable act.

The executive of this State, it is also reported, drew on the treasury contrary to all law, for a sum so small amount, for the purpose of illuminating the capitol on the election of president, &c. See. This you see, how the public money is handled by these gentry, without the least authority.

The next thing noticed in your paper was respecting the very great salary allowed to the public printer by our legislature. At this you will not be surprised when it is recollected that... But let us hope for the better. Perhaps the next assembly will act as men who have the interest of their State at heart, by offering the business to the person who will do it for the least money.

POSTSCRIPT TO THE ABOVE.

THIS letter is the genuine production of a person beyond the Blue Ridge. After leaving out a few hard words, which it would not be advisable to print, the letter is published exactly as it was wrote. It is amusing to contemplate the operations of a plain, unlettered mind, which reflects and feels for itself, apart from the buffle of contending factions. Such appears to be our Dutch correspondent.

Our correspondent must excise for suppressing the remainder of his letter. Vid. Recorder of the 20th of October.

The letter goes on to complain of the money taken to illustrate the capital. Many rights, but the people do not, lately, seem to have suspended the greater part of their call as regularly waded in a manner equally foolish. What do you think of five hundred dollars a piece to two lawyers for pleading in Beaumarchais's suit against the congregation? The gentlemen cannot be blamed for accepting of their fees if ten times as much had been offered. But the wicked world will persist in believing that if John Guerant had been to pay the calls from his own pocket, he would have halted at half the sum; and would, after all, have got the calls as well paid as it has been. It is surprising that, in this case, the council forgot to employ the attorney general of the state. You know the handsome reputation that he acquired in the affair of the Richmond conspiracy for driving Callender out of the city. You know the judgment, perseverance and success with which the attorney general prosecuted this suit. But permit me to do you know that a scoundrel, stupid, prodigal government, such as that of our present executive council, and to all the effects of venality, there is nothing more fertile than a newspaper like the Recorder.
